

## Strength test report – Belt RX085

Product name: Belt RX085

Strength test device: Ripper ZWICK Z050 with calibration certificate ZPS-0539-2015

Loading model: tested every single loop

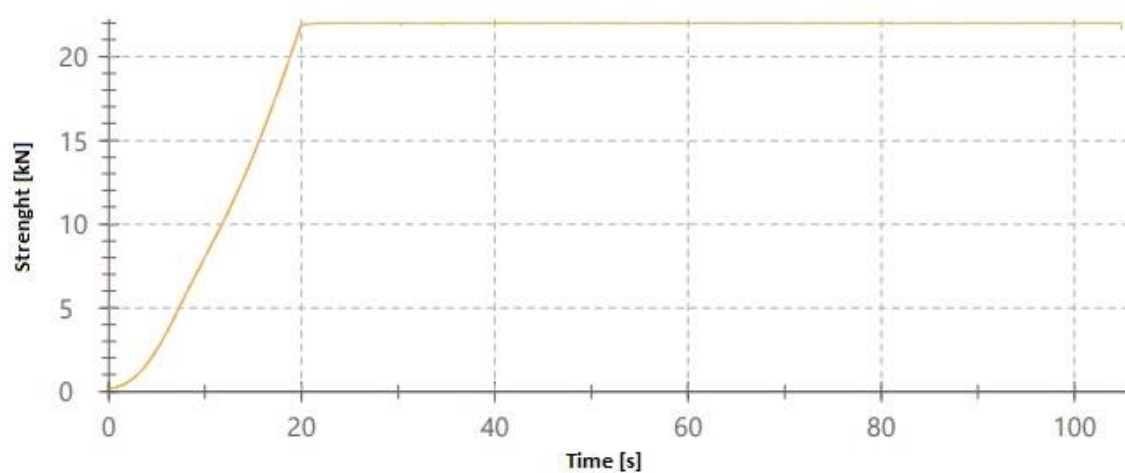

Set breaking load – 50 kN

Test data: 19.09.2019

Colour	No	Test data	Product name	Fmax [kN]
	1	2019-09-19	Belt RX085 25x2,4 mm	22,0

### Loading Graph

### Conclusions:

BLL in every single loop = 22,0 kN. Important note: put carabiner in loops, marked end should be mount up.

Test engineer:  
Bartłomiej Zarebski
